FASTEST SELLING CAR

of all the One-Profit Studebakers

INCREASED volume of sales—founded on Studebaker's policies of one-profit manufacture, and no yearly models—made it possible to reduce the price of this Standard Six Coach by \$100.

Already a wonderful value—a leader of the line—the lowest priced closed car ever sold by Studebaker—its previous low price has been over one hundred dollars.

Many of the superiorities of this one-profit Coach are hidden until revealed by thousands of miles of usage. You can't see the fine workmanship and materials inside the engine and body which gives excess mileage. But there are some things that you can check against competitive cars to satisfy yourself that this is a Studebaker of the same fine quality as before the price cut—a Studebaker more up to date than the newest yearly models.

EXCESS POWER—According to rating of National Automobile Chamber of Commerce, this is the most powerful car of its size and weight.

WOOL UPHOLSTERY—Durable.

INSTRUMENTS—Including 8-day clock, gasoline gauge, speedometer, oil pressure gauge and ammeter, in single grouping under glass on beautiful silver-faced dial.

FULL-SIZE BALLOON TIRES—For which the steering gear, fenders and even the body lines are specially designed.

AUTOMATIC SPARK CONTROL—No spark lever on steering wheel, but:

SAFETY LIGHTING CONTROL—On the steering wheel, at the driver's finger tips.

IMPROVED ONE-PIECE WINDSHIELD—Automatic windshield cleaner, weatherproof wiper, rear-view mirror, attractive cowl lights and cowl ventilator.

CO-INCIDENTAL LOCK—To ignition and steering wheel, which serves to reduce the theft insurance rates—single key operates this lock as well as that on the door and the clever device on the spare-tire carrier.

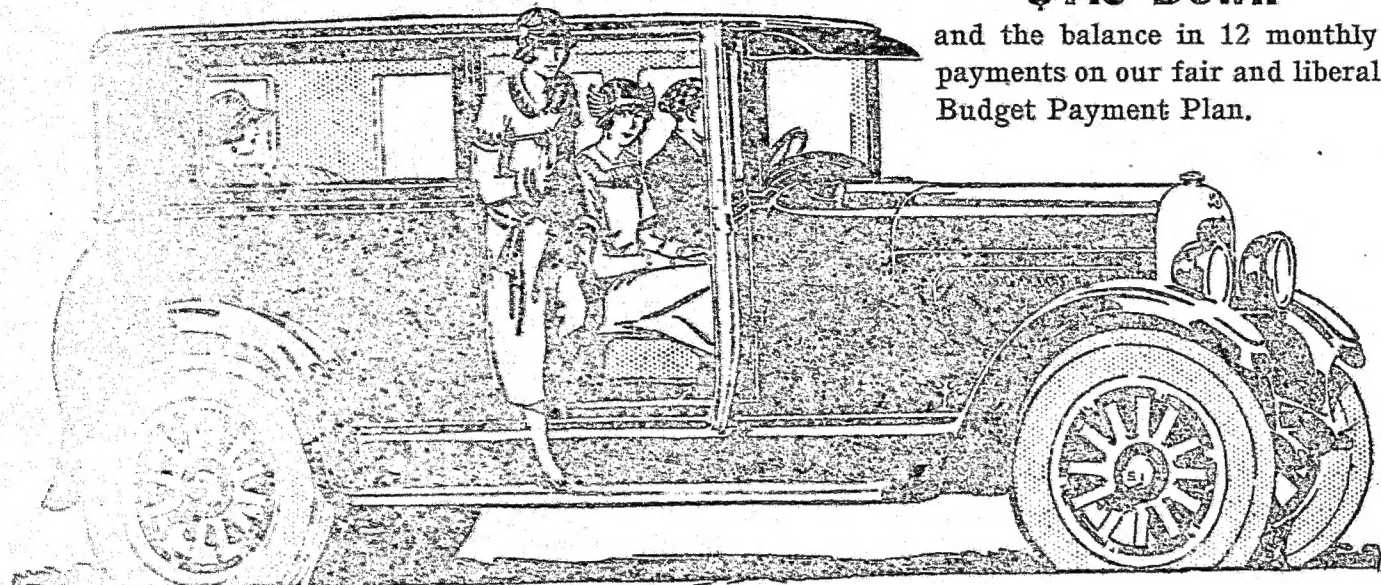

COMPLETELY MACHINED CRANK-SHAFT—To obtain perfect engine balance and thus reduce vibration to a minimum.

There are only two cars manufactured on the one-profit basis: Studebaker in the fine car field, and the Ford in the low priced field. Only in these two cases does one company in its own plants make all bodies, all engines, all clutches, steering gears, differentials, springs, gear sets, gray iron castings and drop forgings.

Come in and see this coach. You will find it the same fine car as before the price reduction.

NEWRY

Sunday River

Herbert M. Kendall

The valley and town have met with a distinct loss in the passing away of Herbert Mandeville Kendall, a lifelong resident, on August 19. He has been in ill health the greater part of two and more years, but has bravely kept up, receiving the greatest care from his family and friends, until he went peacefully to eternal rest.

He was the son of Justus J. and Marcia (Merrill) Kendall and of a family of eleven there is left but one, Mrs. Alina E. (Kendall) Grover, who, owing to illness, was unable to attend the service held at the home, Friday, Aug. 21, conducted by Rev. C. B. Oliver of the M. E. Church at Bethel, S. S. Greenleaf in charge.

Sept. 4, 1894, he was united in marriage with Sarah A. Spinney of Newry. Five children were born to them, the oldest, Bertha Alice, died in infancy; he is survived by his wife; son, Anson Herbert; daughters, Edna E., Ruth M., and Charlette S., of his immediate family, and by his sister, Mrs. Grover, of his close relatives. Many nieces and nephews, and hosts of friends.

He was a good townsman in every sense of the word, always interested and active in the interest of his home town.

The service was most largely attended of any held in the valley. Bear River Grange, of which he was a member, sent a large delegation. The abundance of flowers spoke eloquently of love and respect. A funeral figure will be greatly missed, as he would have reached his seventy-second milestone on Sept. 19. He was a close friend and schoolmate, D. E. Smith, Bion Swan, Mrs. Ruby (Smith) Cunningham, Leslie G. Kendall, Mr. and Mrs. P. Adolphe Wilson and family of Newry, N. H., schoolmates; George Williamson of Presque Isle and Selden Foster of Everett, Mass.

Burial was in the family lot at Hillside Cemetery, near "Artist Bridge."

Robert Bean and Enoch Foster are at Rumford Hospital, recovering from an operation for appendicitis. Mr. Bean has a large family and his illness is much regretted.

We are glad to know that Mrs. Herbert Kendall will keep the old homestead, as it has been in the family for nearly a hundred years.

Mrs. Dollie Carroll of Franklin, Mass., called at Walter Powers' Sunday.

Mrs. Selma McPherson is in Gilead for the month of September.

Walter Powers bought a young bull of John Zale, of Rumford Center.

Will Walker of Rumford Point was in town, Sunday.

The school began here last Monday, with the same teacher, Miss Saunders.

SWEDEN

The following people were recent Sunday afternoon callers of Mrs. Isabel Riddell at the old homestead: Mr. and Mrs. Charles Locklin and Arthur Locklin, of Franklin, Mass.; Walter M. Riddell, Mr. and Mrs. James Laird, Jr., and James and Mrs. Laird, Jr., of Medford, Mass.; Mr. and Mrs. P. W. Seavey and Doris Seavey, Mr. and Mrs. Fred Hutchins, John, Jr., Helen and Malcolm Cole, Daniel W. Johnson, Florence N. Morrill, Noah McDonald, Mr. and Mrs. Edward McIntire, Lewis A. Riddell, Mr. and Mrs. Thomas Riddell, Mr. and Mrs. Frank Riddell, Mr. and Mrs. S. C. Riddell, Misses Marion, Hannah and Anne Riddell, Mr. and Mrs. Irving Riddell, Olin Philip Riddell, Mr. and Mrs. Roland Howard, all of North Bridgton; Mr. and Mrs. George Riddell, Mr. and Mrs. Carl Stegman and Sarah Riddell, Mr. and Mrs. Chester Russell, Eleanor Russell, Mrs. Annie Laskey and Charles Porter.

The annual Riddell reunion was held at Sweden Lake, Sunday, the 30th.

One of the twin sons of Mr. and Mrs. John Pike has been very ill.

Mrs. Addie Mann helped Mrs. John Pike with her housework for a few days and Miss Mary Durgin is helping her at present.

Mrs. Annie Laskey is staying with her grandson, Chester Russell.

George Riddell and Albert Smart were in Bridgton a few days helping Albert Cole, doing the cement work on the cellar of the house he is building.

Mr. and Mrs. Howard Cole of Standish visited their niece, Mrs. John Pike, recently.

Mrs. Annie Laskey spent the day with Eva Riddell, while her granddaughter, Mrs. Chester Russell, and Mrs. Isabel Riddell went to Fryeburg to attend the funeral of Mrs. Noah McDonald.

Miss Marjorie Pike, who has been staying with her uncle, George Pike, has returned to her home in Arlington, Vt.

Mrs. Todd of Rowley, Mass., visited her daughter, Elizabeth Pike, last week.

Our summer visitors are fast leaving us. Camp Katahdin closed the 25th and Tapawingo soon after.

Dr. Beatty and Dr. and Mrs. Winchard of Hoboken, N. J., who have been staying at "Gibbs Inn" at Stearns Pond, for a month, left for their home, Sept. 4.

Winnie Smart and Elizabeth Riddell, who are working at Elms Inn, Harrison, were at their homes for Saturday night, returning to work Sunday morning.

Shirley Benson and Stuart Stanley visited friends in the Riddell neighborhood, recently.

School begins the 8th in the Haskell District, with Mrs. Hayward Smart as teacher. Hugh Smart will convey the Riddell scholars.

Black Mt.

School opened Aug. 31, with Miss Lena Chayer as teacher.

James Jackson has been thrashing on the hill this week.

Small Graveyards In Paris

By F. A. Briggs

About three miles from Paris Hill, on the road to Hiram, is a small yard, not very well cared for except the graves of the Finnish people, which are in good shape. This yard is near the residence of C. W. Shaw.

Luke Chase, son of Bradford, was born in Sutton, Mass., May 15, 1789, married Dorcas Stearns, and came to Paris and settled in the King District. He was for a long time Deacon of the Baptist Church on Paris Hill. He had a family of five sons. He has a slate stone, badly leaning, in this yard, bearing the inscription:

Dec. Luke Chase

Died Sept. 25, 1839

Aged 72

"Grieve ye mourners, cease to languish

Over the graves of those you love,

For death and death's agonies,

Enter not the world's store.

Dorcas Stearns was born in Sutton,

Mass., August 5, 1780, married, Decem-

ber 1, 1808, Luke Chase. She has a slate

stone, badly leaning, in this yard, bearing

the inscription:

NORTH LOVELL

Mrs. A. B. Garelson came from Nor- way, Saturday, and spent the week end with her husband and son at C. A. Garelson's, where they have been staying the past two weeks. Mr. and Mrs. Garelson and son, Frederick, returned to their home in Bangor, Monday.

Several of Mr. and Mrs. H. B. McKee's children, were at home, Sunday. William Sanborn of Stow is building a rock fireplace in Mr. Souther's cottage, his helper is Peasey Brown, of Stow.

Paul Adams has been working for Mrs. Emil Melrose, at West Stoneham.

Mrs. Adelia Russell visited Mrs. Susie Wilson, at Center Lovell, last week.

Winslow Walker of Fryeburg has been visiting Leland Wilson's, a few days.

Ernest Hatch's carpenters put roofing on Peasey McKee's house, Monday. They did a good job and the roof shows it.

Very dry, hot weather—rain is needed very much, as wells and springs are low and some of them entirely dry.

H. C. McKee and a friend, of Shal- burne, N. H., called on his brother, Per- burie, N. H., Sunday. He motored to Fryeburg and called on relatives and friends, returning to Shalburne, Sunday night.

Mr. and Mrs. Jesse Adams and son, Paul, and Mr. and Mrs. Arthur Buck of Milton, motored to Woodstock and camped at the foot of Jackson Mountain. The next day they climbed the mountain. They secured a nice lot of blueberries and cranberries, also enjoyed the beautiful scenery; a very pleasant outing was enjoyed by the party.

The Southerns are building a commodi- ous cottage on their lot on the shore of Kezar Lake. Willis McAllister has taken the job and, with his helpers, will probably finish the building this fall.

School began Aug. 31, the teacher is Miss Ethie Varney of North Parsonfield. There are sixteen pupils attending. Mrs. Lottie Warren is conveying the pupils from Stockholm.

Speaking of the Dexter Cooper plan to harness the tidal power of Quoddy Bay, the New York Herald Tribune says that "the proposal to give Maine the first marine super-power plant must appeal strongly to the inhabitants all the way from Kittery Point to Quoddy Head."

The Herald is correct, it does. "The plan is reasonable to expect that the voters will approve the charter, and again it is correct."

NORWAY VICINITY

About Town

By C. F. Whitman

There are many things taking place around town that do not always get into the local paper, but which must be of much interest, especially to former Norway citizens.

It may or may not be generally known that Stephen E. Cummings has constructed a reflecting telescope by which the phases of Venus, moons of Jupiter and many star clusters beyond the vision of the naked eye, can be seen. At one period, this accomplishment would have amazed the world. In this age, the idea itself is not remarkable, but in this case, what is wonderful about it is the fact that Mr. Cummings ground the glass to the precise form and shape required. A little reflection will convince anyone of the extreme difficulty of the operation. The intelligence and skill displayed is a very great feat.

It has not been noticed about much that Mr. and Mrs. Fred H. Cummings have a collection of curios, bric-a-brac, pictures, etc., large enough for filling many rooms, some of these things are very rare and valuable, and have taken many years to get together. A rare accomplishment is a cultivated taste, and they have it in full measure.

It has been well known for many years that Mr. and Mrs. Fred H. Cummings have a collection of curios, bric-a-brac, pictures, etc., large enough for filling many rooms, some of these things are very rare and valuable, and have taken many years to get together. A rare accomplishment is a cultivated taste, and they have it in full measure.

Miss Flora B. Murch, helper in the office of Dr. Drake and Easton for many years, has been taking snapshots of places, persons, etc. Her collection is worthy of mention and is being constantly augmented.

L. J. Ames of Locke's Mills was in town on business, Tuesday. He left at this office a scrap book made years ago and found in an old dwelling. There are stories and poems carefully treasured, among them is an adventure of Noah Tobey, written by the late Dr. Lapham and will appear in these columns.

The Norway-Paris Band accepted the invitation of Ernest W. Hutchins, manager of Sunset Springs House, Harrison, for an informal assembly at that place last Friday evening. Fourteen members were over and enjoyed a fine supper prepared for them, after which the band rendered a concert, among the musical numbers was a trumpet solo by the leader, Frank P. Knapp. Mrs. Swartz, a guest, played a violin solo, which was well received. A number of summer guests greatly enjoyed the entertainment.

Mr. and Mrs. Reuben Burdett, of Boston, have been guests for several days of Mr. and Mrs. Z. L. Merchants. Mr. Burdett is Mrs. Merchants' brother. Mrs. Burdett is Mr. Merchants' sister. They left Friday, to visit relatives in Vermont.

Schools in the Norway-Oxford-Waterford district began on Tuesday, Sept. 3. Highway patrolmen, Eugene Stevens and George Wood, had a bad spill on Main Street, Monday afternoon, when the motorcycle on which both were riding, skidded on the wet cement. The outfit went flat on the highway, causing the riders scratches, bruises and damaged uniforms. After getting themselves together, the officers remounted and continued on their way.

The Dennis Pike Real Estate Agency has made a sale of the Tripp homestead, at Hebron Academy, to Sybil G. Garrity of New York City, who will take possession at once and make necessary alterations.

Philip Stone, his mother, Mrs. Elizabeth Stone, Mr. and Mrs. Elmer Morrill and daughter, Margaret, Mr. and Mrs. Paul Hosmer and daughter, Pauline, Miss Mary Gibson, of California, and Miss Mabel Stanley, enjoyed an auto trip Sunday. They had a picnic lunch in Andover, and continued to Upton before returning home.

William E. Decoteau, General Manager of the C. W. Ware Co. of Boston, producers of C. W. Ware were guests the first of the week, of Mr. and Mrs. Julius Decoteau.

Joseph St. Jean completed his engagement at Sarah's Barlowe on Saturday night, and has gone to Portland.

Miss Emilie Davis returned, Saturday, from several weeks vacation at Old Orchard, Peak's Island and Stow.

Niel Violette, Forest Commissioner of Maine, intends to establish camps and rest stops along the highways for the benefit of the tourists who wish to stop and prepare their meals. Each place selected will have a cool spring available for the use of the tourists, as well as a stone fireplace for the preparation of meals.

This is a move in the right direction for the prevention of forest fires as many fires are started by careless tourists, who leave without totally extinguishing their camp fires. The spots selected will be noted for their beautiful scenery.

New Development

Plans to Boost Maine Next Year

P. S. Cowell of St. Petersburg, Fla., has been spending six weeks in Maine at South Casco and has become a Maine enthusiast.

Mr. Cowell is president of the New York-Pennsylvania Realty Co., which firm is operating on a large scale in Florida at present, and he now plans to begin a development program in the vicinity of South Casco next year, firmly believing that Maine is just beginning to advance to the plane it should hold as a vacation State. Ardent co-operators of Mr. Cowell in this proposed enterprise are Messrs. Hancock, both of whom are members of the firm of which the Florida man is president.

EAST-STONEHAM

Merton McAllister has been carrying camp boys from Waterford to Portland. George Merrill has been staying with his sister, Edith Merrill, at North Waterford.

Mrs. Charlotte Butters is visiting her son, Sewell Butters, of Fryeburg.

Mrs. Josephine Bickford and Fay Lord have been spending a few days in town.

Harland Littlefield went to Madison, Saturday.

Eleanor Adams has finished work at Waterford.

Fred Morse is visiting his sister, Mrs. Merton McAllister.

Mrs. Anna Files has been visiting friends in Oxford.

Mrs. Ruth Stearns visited her friend, Mrs. R. A. McAllister, Friday.

Ralph MacDonald spent Tuesday night at Clarence Files.

Errol Barker and family have moved to Bartlettboro, where Mr. Barker has work.

Mrs. Errol Barker spent the day, Wednesday, with Mrs. Lucy McAllister.

V. H. Littlefield has a new Ford coupe. Mr. and Mrs. Bert DeLuna are stopping with her sister, Mrs. Will Day.

Elmer McAllister, Arthur and Carroll Curtis are working at Lovell.

Eileen Stevens is working on the road and hauling. Will Day's.

Mrs. Leslie McAllister and two children and Mrs. Gerald McAllister and daughter called on Mrs. Frank Moody, Sunday.

Mr. and Mrs. Clarence Files and son, Richard, called on her parents, Mr. and Mrs. Asa Keniston, Sunday.

Mrs. Georgia McAllister spent Sunday with her daughter, Mrs. Lila Millett, of Waterford.

BETHEL
There were special services and union meetings with outside speakers, at the church, August 29th. A Christian Science lecture, given by John Randall Dunn C. S. B., of Boston, was appreciated by a large audience at Odell Hall, many from out of town attending.

Dr. B. Tibbitts and family were recently at Preque Isle.

Vivian Hutchins from Schenectady, N. Y., is spending some time at the home of her parents, Mr. and Mrs. J. S. Hutchins and family.

Mr. and Mrs. Orman Bennett of Fryeburg called at D. R. Smith's, Saturday, on their way to Gilead, to visit his parents, Mr. and Mrs. W. C. Bennett.

Ernest Walker recently entertained his sister, Mrs. Clinton Metcalf, and family, of Farmington.

Mrs. W. E. Cunningham of Gorham, N. H., has been at the home of her brother, D. R. Smith, twice within a few weeks, owing to the illness of her aunt, Mrs. A. E. K. Grover, and death of her uncle, Herbert M. Kendall, of Newry.

Several Richardson and family of West Paris were guests of Mrs. Richardson's sister, Mrs. Roy Hamlin, and family.

Albert Clark, formerly of Sharon, Pa., now of Boston, has, with his family, been visiting his parents, Mr. and Mrs. Fred Clark, Summer St.

Mrs. Emma Mills and daughter, Mrs. W. E. Bartlett, called on Mrs. A. E. K. Grover, recently. Mrs. Grover has been the recipient of many kindnesses during the past few weeks of rather severe illness. Improvement has been quite rapid, lately.

Edward Hanson and bride are at her father's, P. H. Hanson's, on their honeymoon.

Many attended the camp meeting at Poland Camp Grounds.

The infant child of Mr. and Mrs. Harry Gordon passed away suddenly, Saturday, August 29.

Gertrude Chapman is the guest of her aunt, Miss Angie Chapman, in Bath.

Edgar C. Grover of Roxbury, Mass., is visiting childhood scenes here, meeting a few he knew then, also calling on his aunt, Mrs. A. E. K. Grover, and Mrs. Amelia Grover.

Mrs. Elwell has returned to her duties at the telephone office.

Harry Brown is building an extensive addition to his hen houses and will increase his flock. One of the secrets of success lies in the fact that Mrs. Brown is quite an expert, being a sister to Prof. Alton Richardson, at the New Hampshire state college, and was formerly at the Maine University, Orono.

Frank nipped many gardens and low-land crops.

Mr. and Mrs. Demarest and three children of Hacksack, N. J., Mr. and Mrs. Carlsby of Bridgton and Mrs. Rebecca Lewis of Farmington were the guests at the home of Mr. and Mrs. Elden Peterkin.

Family Reunion
The fourth family reunion of the Freeman Ellingswood descendants was held at the home of Mr. and Mrs. M. J. Marshall on the bank of the Androscoggin, near the bridge, on Sunday, August 30.

The day descended upon the occasion, all sorts of stunts were enjoyed by the younger ones and some of the older ones "showed off," too.

A picnic dinner was enjoyed on the spacious lawn.

Mr. and Mrs. Marshall and family spared no effort in making their guests welcome, and as the time for parting came, all voted it was the best time yet, and with the hope of all meeting again in 1926, place and date to be named later.

A delightful program, arranged by the committee of speeches, readings and music, gave much pleasure.

GROVER HILL
Mr. and Mrs. W. H. Hutchins and son, Ervin, Mr. and Mrs. A. C. Hutchinson, Mrs. C. M. Hennessey, Mr. R. M. Berry, motored to Old Orchard beach and return, Sunday.

Proposed Constitutional Amendments and Referendum Question to be Voted Upon
September 14, 1925

Penalty for willfully defacing, tearing down, removing or destroying an official list of questions submitted to the electors, or a specimen ballot, five to one hundred dollars.

FRANK W. BALL, Secretary of State.

Those in favor of any, or all, of the following proposed questions will place a cross (X) in each, or any, of the squares marked "Yes." Those opposed to the question, or questions, for which they desire to vote; those opposed will place a cross (X) in the square or squares marked "No."

LIST OF QUESTIONS

AMENDMENT NO. 1

YES ☐ NO ☐

Shall the Constitution be amended as proposed by a resolution of the legislature providing for an increase in the amount of state bonds to be issued for the purpose of building a highway or combination highway and railroad bridge across the Kennebec river, between the city of Bath and the town of Woolwich?

By Chapter 71 of the Resolves of 1925, it is proposed to amend Section seventeen, Article nine of the Constitution by adding to said section the following: "The legislature may authorize, in addition to the bonds heretofore mentioned, the issuance of bonds not exceeding three million dollars in amount at any one time payable within fifty-one years at a rate of interest not exceeding four per centum per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of a highway or combination highway and railroad bridge across the Kennebec river, between the city of Bath and the town of Woolwich," so that said section, as amended, shall read as follows:

Shall the legislature may authorize the issuing of bonds not exceeding ten million dollars in amount at any one time, payable within fifty-one years, at a rate of interest not exceeding five per centum per annum, payable semi-annually, which bonds or their proceeds shall be devoted solely to the building of state highways, and intra-state, inter-state and international bridges, provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed ten million dollars; the expenditure of said money to be divided equitably among the several counties of the state. The legislature may authorize, in addition to the bonds heretofore mentioned, the issuance of bonds not exceeding three million dollars in amount at any time, payable within fifty-one years, at a rate of interest not exceeding four per centum per annum, payable semi-annually, which bonds or their proceeds shall be devoted, solely to the building of a highway or combination highway and railroad bridge across the Kennebec river between the city of Bath and the town of Woolwich."

AMENDMENT NO. 2

YES ☐ NO ☐

Shall the Constitution be amended as proposed by a resolution of the legislature providing for an increase in the amount of state bonds to be issued for the purpose of building state highways and intrastate, interstate and international bridges?

By Chapter 118 of the Resolves of 1925, it is proposed that Section seventeen of Article nine of the Constitution as amended by Article forty-three of the Constitution, is further amended by striking out all of said section and inserting in the place thereof the following, so that said section, as amended, shall read as follows:

"Sec. 17. The legislature may authorize the issuing of bonds not exceeding sixteen million dollars in amount at any one time, payable within forty-one years, except that all bonds issued under authority of this resolve during and after the year nineteen hundred twenty-five shall be payable within fifteen years, at a rate of interest not exceeding five per centum per annum, payable semi-annually, which bonds or their proceeds, shall be devoted solely to the building of state highways and intrastate, interstate and international bridges; provided, however, that bonds issued and outstanding under the authority of this section shall never, in the aggregate, exceed sixteen million dollars, which said bonds issued during or after the year nineteen hundred twenty-five shall be serial and when paid at maturity, or otherwise retired, shall not be re-issued; the expenditure of said money to be divided equitably among the several counties of the state."

REFERENDUM QUESTION

YES ☐ NO ☐

Shall the act providing for the incorporation of Dexter P. Cooper, Incorporated, for the Purpose of Developing and Utilizing the Power of the Tides in the Bay of Fundy and Waters Adjacent Thereto including the right to transmit outside the state electric power generated by the tides under restrictions provided for therein be accepted?

This Act is Chapter 111, of the Private and Special Laws of 1925, as enacted by the Eighty-second legislature; and said Legislature, acting under the provisions of Article thirty-one, Section nineteen of the Constitution of Maine, passed said Act expressly conditioned upon the people's ratification by a referendum vote.

Those in favor of this Act becoming a law will place a cross (X) in the square marked "YES." Those opposed to this Act becoming a law will place a cross (X) in the square marked "NO."

Short Talk—Mrs. Mrs. Mrs.
Poem, "Opportunity"
Rev. Charles Hubbard of Portland, and Mrs. Ives conducted the Sunday morning worship at the Albany Church and Mr. Dunelm of Portland preached an interesting sermon, text taken from Proverbs 24:30-31. "I went by the field of the slothful, and by the vineyard of the man void of understanding. And, lo, it was all grown over with thorns, and nettles had covered the face thereof, and the stone wall was broken down." If a man plants a garden and it grows to weeds, his neighbor cannot prevent it, although the seeds of the weeds will injure their neighbor. He likened our lives to three vineyards, body, mind and soul, the body should not be injured by bad habits, for it is the temple of the living God. Our minds should be filled with pure thoughts, avoiding vile literature, vice, words or thoughts. Our soul should be filled with the great love of Christ, which is to love thy neighbor as thyself.

Four Times Greater Than Muscle Shoals. May Produce Wonderful Industrial Development In Eastern Maine.

Project to Be Voted On In September Election—Is Strongly Endorsed by Many Maine Men of Prominence

Excepting only Niagara, the great immediate, usable waterpower in the United States lies in the State of Maine. Even Muscle Shoals, the much advertised "Niagara of the South," is small in comparison with the possibilities that Maine has to offer.

Though Maine's rivers are capable of supplying a large amount of power, this "Niagara of the East" is not river power—it is a gift of the sea. Owing to the unique features of Maine's eastern coast, it is economically practical to put to work the high tides that rush twice daily in Passamaquoddy Bay. Careful engineering surveys, which have been in progress for years, indicate that by means of huge dams and other works, costing less per primary horsepower than the Muscle Shoals installation, 500,000 horsepower can be generated here continuously and, during the two weeks of each month when there are unusually high tides, this total will reach nearly 700,000 horsepower.

Now compare this with Muscle Shoals. Passamaquoddy Bay Has Four Times the Primary Power of Muscle Shoals. Muscle Shoals lies on the Tennessee River, which shares the peculiarities of most rivers in that its flow varies in accordance with the season. Thus it is estimated by government engineers that over 600,000 horsepower can be generated at Muscle Shoals during the very high spring flood, but on the other hand during the dry season less than 100,000 horsepower can be obtained.

It is, however, continuous or "primary" power—power that can be obtained twenty-four hours a day every day in the year—that is of first importance. "Secondary" power—power that can be obtained only part of the time—has indeed some value, but very much less than primary power.

To obtain a direct comparison between the power at Passamaquoddy Bay and that at Muscle Shoals, kilowatt hours per year must be taken. According to Colonel Hugh Cooper, consulting engineer for Muscle Shoals, the primary power at Wilson Dam, Muscle Shoals is 2,000,000,000 kilowatt hours per annum.

For Passamaquoddy Bay, however, the amount of continuous dependable primary power is 2,268,000,000 kilowatt hours.

In other words, from the standpoint of primary power the Passamaquoddy Bay development has power possibilities that are four times greater than the power that can be developed at Wilson Dam, Muscle Shoals.

But, even giving Muscle Shoals credit for all the power that can, economically be developed there, including the secondary power available only during seasons of high water, it can supply, according to Colonel Cooper, 2,100,000,000 kilowatt hours per annum. On the same basis, however, Passamaquoddy Bay can develop 2,500,000,000 kilowatt hours, or nearly twice the total of Muscle Shoals.

But the advantage possessed by Passamaquoddy Bay as compared with Muscle Shoals does not end with its mere size. Muscle Shoals has been conspicuous in the public eye not merely because it is a large water power, but particularly because it is a potential source of cheap fertilizer for the American farmer.

One of the essential elements in fertilizer is phosphorus. The chief source of phosphoric rock in the United States is Florida, although some is also obtainable in Tennessee. To ship phosphoric rock to Muscle Shoals from Florida means a long, expensive freight haul. Shipments to Passamaquoddy Bay can be made by sea. So cheap is sea transportation that Florida's phosphorus deposits are almost next door to Passamaquoddy Bay. Even the Tennessee phosphoric rock cannot be shipped to Muscle Shoals as cheap as the Florida rock can be shipped to Maine.

As far as the other important element in fertilizer is concerned, namely nitrogen, Muscle Shoals enjoys no advantage over Passamaquoddy Bay, because this element is derived from the air.

Thus Passamaquoddy Bay has enormous possibilities from the standpoint of fertilizer alone.

But in addition to fertilizer many other products require electric power; among these are aluminum, carbonyl, chlorine, and a wide variety of alloys and chemicals. Industries manufacturing such products use electric power in vast quantities and are attracted to the source of power so that the cost of transmission will be reduced to the lowest figure.

NORTH WOODSTOCK

Norma Cole, Evelyn Coffin and others from North Woodstock attended the field day at Paris Hill, Friday.

Mrs. George Abbott spent Friday and Saturday with her sister, Mrs. John Hemingway, at Norway.

Mr. and Mrs. Herman Cole and daughters, Alice, Evelyn and Everett Cole, visited friends in Turner, Friday.

George Jenkins was in Norway, Saturday, the 22nd.

Mrs. Sadie Davis Margueau and children of Southville, Mass., visited Mrs. George Cushman and other relatives in town, recently.

Mr. and Mrs. Herman Cole and daughter spent Sunday with relatives at Rumford Corner.

Electricity Created a City at Niagara Falls

To estimate the possibilities of growth of industry at Passamaquoddy Bay, due to industries of this character, it is perhaps fair to consider Niagara Falls.

In 1894 electric power in large quantity was first generated at Niagara Falls. Prior to that time no figures of either population or manufactures are given by the United States Census for this locality because neither were especially important. As soon as electricity was available here, however, there was an immediate change. Great industries were immediately erected in the neighborhood of the Falls and a city rose where before there was a mere stopping place for tourists.

This change is reflected in the United States Census Reports. In 1900 the permanent population of Niagara Falls was 19,000; in 1910 30,000; and in 1920, 51,000. The value of the manufactured products in Niagara Falls was \$5,540,000 in 1900; \$17,000,000 in 1905; \$45,000,000 in 1914; and \$89,000,000 in 1919. The figures for the last census are not yet available, but it is probable they will run over \$100,000,000.

Electricity Developing the South
Another instance of the developing power of electricity can be found in the southern states. During the past twenty years an immense electrical system has been built up in the south which now supplies over 2,000,000,000 kilowatt hours a year to southern homes and industries.

Nowhere in North America has greater development taken place than in the south since this system came into existence. Everywhere in this area new factories, office buildings, homes, schools and churches are springing up. The value of manufactured products has increased over 236 per cent during the past ten years and the wages of persons engaged in industry have doubled within this same period.

Industrial activities follow economical sources of dependable power and population and prosperity follow industry.

To Be Voted on in September

The charter giving Dexter P. Cooper the right to develop the Quoddy power will be submitted to the people of Maine at the special election to be held on September 14. It is the third and last of the three questions on the ballot, and voters who wish to see the latent resources of Maine developed, increasing our tax revenues, our population and our wealth, and incidentally providing for Maine farmers a cheap, abundant and convenient supply of fertilizers should not fail to go to the polls to vote "yes" on this bill.

Among the many statements by prominent Maine citizens with reference to it are the following. Many others could be presented if space permitted.

"The people of Maine are convinced that the project is not to create a precedent for the general exportation of electric power, but constitutes rather an exception that proves the rule, then September will see the proposal overwhelmingly endorsed."

GOVERNOR RALPH O. BREWSTER

"The passage of the bill by the voters of Maine will not constitute a precedent for invading our long established and to my mind sound policy of non-transmission. In one way it emphasizes and reinforces it. In short I believe if the Cooper project becomes a reality it will benefit Washington County and the State of Maine. I personally shall vote for it and am willing to have everybody know it."

Ex-Governor Percival P. Baxter
"It seems to me that the project cannot fail to be of advantage to the people of the State and I hope and believe it will receive their endorsement at the referendum in September."

Senator Frederick Hale
"I cannot see how anybody interested in developing Maine can fail to vote affirmatively."

W. R. Pattangall
"I am very much interested in the Quoddy Tidal Project and shall be glad to give it my hearty support—and feel sure that the great majority of the people will do the same."

Hiram W. Ricker
"I am unqualifiedly an advocate of the Quoddy Tidal Project. In my judgment it would be a mistake (if not) an economic crime to refuse the Charter."

Judge Benjamin F. Cleaves

"I am heartily in favor of the Cooper-Quoddy Development Project. I have worked for it and shall continue until the vote is counted. I am satisfied with the Charter and believe it adequately protects all public interests. Personally, I can see no reason why I or any other citizen of Maine should refuse to approve the charter. I can see many reasons why we should."

John E. Nelson
John Coffin and wife of Buckfield and Mr. and Mrs. Alfie Coffin of Rumford were Sunday guests at Frank Coffin's.

Mr. and Mrs. Jesse Jenkins of Rumford Corner were at Francis Cole's, Sunday afternoon, Aug. 23.

Ernest Smith and family called on friends at Rumford Corner, Sunday, the 22nd.

Norma Cole is visiting her friend, Ina Richardson, at Rumford, for a few days.

Mr. and Mrs. Harry Dimock and Mr. and Mrs. Charles DeVal and two children of Boston, Mass., were guests of Mr. and Mrs. James Cook at 8 p. m. Standard Time.

Mr. and Mrs. John Hemingway of Norway visited their parents, Mr. and Mrs. Cullen Abbott, Sunday, Aug. 23.
